

CREATIVITY AT FULL SAIL

Presentation Description

Our philosophy centers on the value in creative thinking and the importance of hands-on experience. We put this into action with an approach that emphasizes problem-solving, learning by doing, and empowering our students to generate their own concepts and ideas. Discover what makes Full Sail University a unique place to learn and create.

Presentation Length

This classroom experience can be adjusted to accommodate **45 - 90 minute** class schedules.

Topics Covered

During this presentation, participants will learn about:

1. Full Sail's real-world approach to both campus and online learning
2. Careers in the entertainment media and emerging technology fields
3. A variety of studio environments and their corresponding technology
4. Life as a Full Sail student
5. Admissions, financial aid, scholarship, and summer camp resources

Set-up & Preparation

All supplies will be provided by our facilitator for this presentation and we can present throughout the day to accommodate multiple classes. Teachers are also welcome to select a different workshop experience for each class.
