

# MUSIC CREATION

## WITH AMPED STUDIO

FULL SAIL  
UNIVERSITY

### Virtual Workshop Description

Arrange a seven-track music composition using MIDI and audio files in Amped Studio. Learn basic song elements such as tempo, key, rhythm, and melody in order to arrange a song and hear it all come together.

### Virtual Workshop Length

This workshop can be completed in **45 - 60 minutes**

### Learning Goals

At the close of this workshop, participants will be able to:

**Identify** music creation as a technique that supports the live and recorded music creation and music performance industries.

**Create** a seven-track music composition using MIDI and Audio files by completing the following five objectives:

1. Navigate a DAW (Digital Audio Workstation) environment
2. Identify basic song elements (tempo, key, rhythm, melodies)
3. Add loops and MIDI files
4. Add effects to stylize a song
5. Add vocal melody to see it all come together

### Set-up & Preparation

Prior to the start of this workshop and for a more engaging experience, attendees can actively participate by creating a free account with Amped Studio found here - <https://ampedstudio.com/>. Alternatively, attendees can also follow along by simply watching the facilitators screen.
